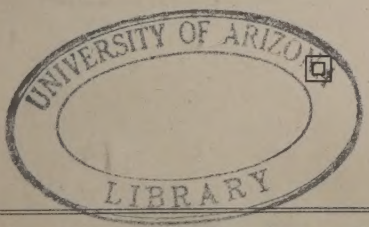
Department of Agricultural Extension

A DIRECTORY OF THE IDAHO BREEDERS OF PURE-BRED LIVE STOCK

Compiled by E. J. IDDINGS, Moscow, Idaho



Any resident of the State may receive the Bulletins of the University and Experiment Station free of charge upon application to Director of Idaho Experiment Station, Moscow, Idaho.

A DIRECTORY OF THE IDAHO BREEDERS
OF
PURE-BRED LIVE STOCK

INTRODUCTORY

Frequent requests come to the Animal Husbandry Department of the University of Idaho for names and addresses of breeders of the various kinds of pure-bred live stock. In replying to such inquiries we have been able in a large percentage of cases to give the names of men within our own state breeding and handling the kind of animals sought.

This little bulletin is a list of all the breeders of pure-bred live stock in Idaho whose names and addresses it was possible to secure without the expense entailed by a personal canvass. It is hoped that it may be the means of making our pure-bred live stock men acquainted with each others' names and addresses, that it may be a step toward closer union of interests and helpful co-operation of live stock breeders and may serve to direct prospective purchasers both from within our own state and from other states to reliable men able to supply considerable live stock of the improved breeds.

We have taken no means of investigating the reliability and cannot guarantee same for breeders listed. In many cases, however, personal acquaintance enables us to promise fair dealing from seller toward buyer, and there is little question but that practically all of the breeders listed have stock of merit.

E. F. Rinehart, Field Animal Husbandman for the University of Idaho, assisted in planning this Directory and in collecting the data.

STANDARD BRED HORSES

NAME OF BREEDER	POSTOFFICE	Number of Registered Males in Herd.	Number of Registered Females in Herd.	Number of Pure-Bred Males For Sale Each Year.	Number of Pure-Bred Females For Sale Each Year.
Anderson, J. H.	Weiser	1	4
